

JMC is a third generation family owned heat transfer company. Our successful history is built on partnering with our customers. We have worked to develop a perspective of what it takes to exceed their customers' expectations, while maintaining a competitive edge.

JMC Supplies

- Copper Radiators
- Bar & Plate Aluminum
- Oil Coolers
- Fans; Steel and Composite
- Shell & Tube Oil Coolers
- AC Condensors
- Aluminum Radiators
- Charge Air Coolers
- Hydraulic Fan Drive Kits
- Hydraulic Systems
- Steel Oil Coolers
- Wire Fan Guards
- Special Coatings

Industries

- Agriculture
- Construction
- Forestry
- Marine
- Material Handling
- Military
- Mining
- Power Generation

Solutions for the Next Generation

- Innovation

We are planning for the future of Thermal Management systems by developing technologies and methods to accommodate Tier 4 requirements and beyond.

- Service

Customer service and technical support are always available from JMC's sales support team. Accurate and timely communication is what our customers expect, and responding with urgency is what sets JMC apart.

- Quality

We pride ourselves in producing consistent products while reducing waste in an efficient lean manufacturing environment.

- Flexible Manufacturing

JMC's product designers can rapidly develop complete designs using proprietary software and modern design tools, enabling our customers to get their new products to market faster.

- Technology

Our on-site laboratory includes the latest computational analysis tools for research and development, as well as advancing our ability to simulate conditions for various applications from our heat transfer equipment.

At JMC, we design, engineer, and manufacture the highest quality cooling systems and components available in today's marketplace.

We recognize that to help our customers succeed, they need to get their products to market as quickly as possible. You can rely on JMC to respond with urgency and to get the job done right the first time.
